

# Girl Talk

## Curriculum Order Form

Most young people have received many messages about sex, but know very little about sexuality. They usually have not had opportunities to discuss, especially with their parents, concerns and problems dealing with sexuality. **Girl Talk** has been developed to bring mothers and daughters together in a non-threatening, friendly environment to learn together about sexuality, communication, family values, and decision making. The curriculum presents factual information about sexuality, body changes, male and female differences, pregnancy, fetal development, parent responsibilities, AIDS, and making responsible decisions. **Girl Talk** encourages both mother and daughter to apply the skills learned to develop an open communication system within the family.

**Cost \$25.00 . . . . Includes Shipping and Handling**

**Curriculum comes in a 3-Ring Binder with dividers.**

**The handouts for each lesson are printed separately from the teaching manual and are in sheet protectors for easy assess.**
