

Make Your Home Healthy with Green Cleaners

Why Use Green Cleaners?

Of the cleaning products on the market today, most contain ingredients you can't even pronounce. Human health is always well served by reducing exposure to chemicals. Decreased chemical use is also a pollution prevention measure.

Save money making your own green cleaners, most ingredients you have at home!

All-Purpose Cleaner

Ingredients

2 tablespoons borax
¼ cup vinegar
2 cups hot water

Directions

Mix ingredients in a spray bottle or bucket.
Apply and wipe clean.

Green cleaning is good for you and good for the environment!
